

**A note from our  
State Purchasing Director,  
John Utterback****E-Procurement –**

The State of Colorado recently released a Request for Information (RFI) on behalf of the State of Colorado, WSCA and NASPO for information on eProcurement Solutions. This initiative is the result of Senate Bill SB 09-99 which was signed by Governor Ritter on June 4, 2009. The goal of this project is to establish a statewide centralized electronic procurement system which allows the utilization of technology to create a more efficient delivery of state procurement services. We intend on utilizing the information gathered from the RFI to assist us in drafting an RFP which we hope to issue in the next quarter.

**Remember** to Register for the next **PAC Meeting** April 15 & the **P-Card Meeting** on the 16th, 2010 to be held at the Ben Nighthorse Campbell Building.

**Green Tips.....did you know:**

- Compact fluorescent bulbs (CFL's) contain mercury? Like paint, batteries, thermostats, and other hazardous household items, CFLs should be disposed of properly. Do not throw CFLs away in your household garbage if better disposal options exist. To find out what to do first check [www.earth911.org](http://www.earth911.org) (where you can find disposal options by using your zip code) or call 1-800-CLEAN-UP (1-800 253-2687) for local disposal options. Another option is to check directly with your local waste management agency for recycling options and disposal guidelines in your community. Additional information is available at [www.lamprecycle.org](http://www.lamprecycle.org).
